

# Spirit Wings Designs ~ Jan Asleson

My designs are inspired by a desire to share with others the beauty that I see around me. My passion is to encourage others through my artistic mediums to not give up on their dreams, to recognize the blessings all around them and to know that there is always hope. In my life journey to know who I am I've discovered that what I've come to recognize as true art comes from the greatest artist of all, God. I believe that when we connect with each other on a heart to heart level, our lives can be changed for the good. I hope in some way that my art will touch your heart....

Working with silver, bronze and copper metals, wire, sheet and metal clays enable me a greater diversity of creativity. I make my own metal beads and clasps and embellish many pieces with natural stones. Each piece I create is individually hand done and slightly different, no two exactly alike. I also work in oil, watercolors, pastels, and acrylic, creating paintings, greeting cards, prints and commissioned portraits. I live in Southeast Kansas with my husband David, Australian Cattle dog Packer and Arabian horse Starbuck. We also enjoy our 6 grandchildren.
